May 7, 2012

Dear Members of Congress,

ASAE and the attached list of associations respectfully urge Congress to consider revisions to amendments passed in two separate bills April 25 by the House and Senate that place severe restrictions on government employees attending meetings and conferences. These amendments were included in the “Digital Accountability and Transparency Act” or DATA Act (H.R. 2146) in the House, and the “21st Century Postal Service Act” (S. 1789) in the Senate.

The American Society of Association Executives (“ASAE”) is a section 501(c)(6) individual membership organization of more than 22,000 association executives and industry partners representing nearly 12,000 tax-exempt organizations. Its members manage leading trade associations, professional societies, and voluntary organizations across the United States and in 50 countries around the globe. We advocate for associations so that they may continue to fulfill their important missions and improve the quality of life in the United States and abroad.

ASAE fully supports the intent of Congress to induce greater transparency and accountability in government spending. There is little defense for exorbitant or wasteful spending of taxpayer dollars. However, while the amendments are designed to limit spending on government-sponsored conferences and travel expenses for federal employees, the actual language would have a chilling effect on government employees’ participation in non-governmental meetings and conferences as well.

The dialogue that takes place at these meetings between government and the private sector is essential to the development of informed policymaking that facilitates economic growth and job creation. The dangers of government operating in a vacuum – with fewer opportunities to learn and exchange information with private industries in a conference or meeting setting – are too great to ignore.

The language in either amendment can be easily modified to allow federal employees to attend educational conferences held by associations and other non-governmental organizations, without compromising Congress’s goal of enhanced federal accountability.

Suggested modifications include:

- Section 1(D) defines “conference” as a meeting “sponsored by 1 or more agencies, 1 or more organizations that are not agencies, or a combination of such agencies or organizations.” This definition would encompass every conference held by an association, corporation or virtually any other non-governmental organization. Our
recommendation is to revise this definition to a meeting “sponsored by 1 or more agencies.”

- The final section of the amendment, Section 4, limits any agency from expending funds on “more than a single conference sponsored or organized by an organization during any fiscal year, unless the agency is the primary sponsor and organizer of the conference.” This provision is highly problematic for agency employees seeking education from non-governmental sources and for the associations and other private sector organizations that invite government employees to conferences. A reasonable reading of this provision would mean that if employees of the National Institutes of Health (NIH) attended a scientific conference sponsored by a medical association, no other employees of the Department of Health and Human Services could attend any other conference held by that same association for the remainder of the fiscal year. Our recommendation would be to strike this final provision from the amendment.

However well-intentioned, the provisions noted above have broad implications for associations and other non-governmental organizations that invite government employees to give presentations or attend their conferences. Without modifications, the provisions could discourage government attendance at educational conferences and hinder the necessary interchange between government and the private sector.

For these reasons, we respectfully ask Congress to revise either amendment as recommended above either before the Senate takes up H.R. 2146 or the House considers S. 1789. Thank you for your consideration of this important request.

Sincerely,
